AMAL THOMAS

OutSystems Developer

PROFILE

IT professional with a strong foundation in OutSystems, backed by two years of hands-on experience in developing and implementing scalable solutions. Adept at collaborating with cross-functional teams to deliver high-quality applications within deadlines. Eager to transition and specialize in Angular or other frontend frameworks. Demonstrates a keen analytical mindset, problem-solving abilities, and a passion for staying current with industry trends. A dedicated team player with excellent communication skills and a drive for continuous learning and improvement.

EXPERIENCE

○ OutSystems Developer

AspireNXT Pvt Ltd, Bangalore, India

September 2021 - present

- Actively contribute as a key member of a dynamic development team, specializing in OutSystems, a low-code application development platform.
- Successfully designed, developed, and implemented a robust vendor onboarding and registration application, streamlining the onboarding process and enhancing vendor management efficiency.
- Engage in direct client communication to gather requirements, provide updates, and address client needs, ensuring a clear understanding of project objectives.
- Collaborate with cross-functional teams to troubleshoot and resolve software issues, demonstrating a proactive approach to bug fixing and ensuring optimal system performance.
- Work closely with team members to share insights, conduct code reviews, and contribute to the overall improvement of development processes
- Spearheaded an Angular Proof of Concept (POC) project, focusing on the creation of a charts dashboard, showcasing the ability to adapt and explore new technologies for project requirements.

CERTIFICATIONS

- AWS Cloud Practitioner Certified.
- OutSystems Associate Reactive Developer Certified.
